

HYRZL MACABULOS

SOFTWARE QA ENGINEER

Software QA engineer with 5 years of experience testing production web applications, including 4 years as a test lead. Currently tests an AI-agent SaaS platform end to end, from the UI through the API, database, background workers and third-party integrations, using Claude Code and Playwright day to day.

TECHNICAL SKILLS

Testing

Functional, regression, integration, E2E, exploratory, API, mobile, performance

Automation

Playwright, Selenium, CI/CD pipelines

AI and LLM testing

AI agents, tool calls, MCP, Claude Code

Backend and data

SQL, REST APIs, webhooks, queues, logs, DevTools

Integrations tested

Auth0, HubSpot, Salesforce, BigMarker

EXPERIENCE

QA Engineer

OrbitalX | December 2025 – present

B2B SaaS marketing platform with a built-in AI agent.

- Test features, fixes and releases on stage before production.
- Test AI agent workflows and tool calls, catching hallucinated actions.
- Test async systems: email workers, webhooks, polling and send limits.
- Test integrations: Auth0, HubSpot, Salesforce, BigMarker and an MCP server.
- Write reproducible bug reports with API, status code and DevTools evidence.
- Use Claude Code and Playwright for exploratory and regression testing.

Software Tester Lead

BPOSEATS | October 2021 – November 2025

- Led web and mobile testing: planning, functional, regression and performance.
- Built and maintained Selenium automated tests in CI/CD.
- Validated data with SQL and traced defects through logs.
- Mentored testers and improved test processes and tooling.

EDUCATION

Bachelor of Science in Mechanical Engineering

Eastern Visayas State University | 2015 – 2021
